1925 Art Deco Paris Exhibition Poster by Loupot Industrial

Description
Exposition / Arts Décoratifs. 1925.
This is the exhibition that crowned the Art Deco trends of the period, gave it its name, and helped it to dominate applied arts for the next decade. “Within this configuration, Loupot distinguishes himself with a quest for synthesis: the rose which emanates from the factory symbolizes the cooperation of art and industry. In spite of the project’s initial guidelines demanded by the [event’s] jury, which rendered the composition heavier and less graceful, this poster nevertheless remains one of the successes of this first Parisian period”. This is the smaller format.
