Art Deco Style Sconce Manhattan Series

Reference:

MPD-001370
Description
We found a series of fantastic Art Deco lights that came from the depression era of America..Circa 1936. We have catalog references for them showing some very unique designs and so we re-created the Manhattan Line consisting of two chandeliers and this fine sconce. Made from zinc by the Lost Wax casting method (also used for jewelry and bronze artwork). This was the exact same material as the Art Deco originals were cast. An on/off switch is mounted on the base.
