

## Teak Credenza / Dresser by Dyrlund Danish Modern

### Reference:

MPD-003841

#### Description

Outstanding Danish teak cabinet by Dyrlund. Superior quality and craftsmanship evidenced through fine details found throughout the piece. Tightly laid tambour doors slide back into the unit to reveal a cabinet space at left, and wide drawers at right. The cabinet is split by a column of small dovetail joint drawers at center. The unique configuration of cabinet space and drawers provides versatility. Use as a dresser in the bedroom, sideboard in the dining room or entertainment center credenza. The unit is beautifully embellished with gracefully sculpted solid teak pulls and trim. Clean except for a few minor scratches on side and door. Top has some very faint bubbles in the veneer that can be seen at certain angles. They are hardly detectable by touch or sight, but can be seen if the light hits just right (see photos).
