

Restored Glass Crystal Filled Live Edge Wood Coffee Table

Reference:

MPD-004148

Description

Spectacular vintage live edge slab coffee table with embedded glass crystals. Cross sections of rustic wood slabs are arranged into a single slab top and cast in resin. The table has been restored with a newly poured scratch free resin surface. The naturally formed cavities are filled with hunks of teal and red glass crystals. The base and edges are raw, unaltered by man. The rugged, natural, material has been forever captured in time with resin. Light ignites the table, dancing through the brilliant hues in the glass and illuminating the warm honey colored wood. The massive size alone is enough to stop you in your tracks. A sight to behold when viewed in person. Newly refinished top. No notable flaws.
