Serge Roche

Image:

Born in Paris in 1898, he was the son of a famous artist and colorist. He designed very creative and original pieces of furniture which he loved to enhance with mirrors in all their forms, beveled and etched! He was also a very successful as an art and antiques dealer, interior designer and event

planner in the art world. He had a gllery on the Rue Faubourg-St-Honore.
His creations focused on light, a certain whimsical magic that spoke of the past but evoked the future. We are luck at Modernism.com to have many examples of his work offered by our great dealers!

Country of origin:

France

Life Span:

1896 - 1988
