

Original Art Deco Bronze Wall Sconces Pair

Reference:

MPD-004811

Description

This is a pair of Art Deco wall sconces. They are elegantly styled with a radiating starburst centerpiece, below that is a grouping of flowers. The leaves of the flowers hang just below that and lead into a stepped pattern which make up the flower stems. Each sconce has two "candles" which sit atop a base which is in the form of a stepped stylized starburst. The entire sconce has a copper wash which purposefully accentuates all of the details of these exquisite examples of Art Deco lighting. Each sconce measures as follows: 10" H x 9" W x 4.5" D. Please feel free to contact us with any questions. These sconces have been recently rewired, however we always recommend that buyers have them checked by a professional electrician prior to installation.
