Atomic Mid Century Sputnik Space Age Coat Rack MCM

Reference:

MPD-006619
Description
This is a cool sputnik coat rack featuring primary colored wooden spheres in the atomic style of George Nelson. There are 5 spheres total on which to hang your coat hat or purse. It measures 70 inches high and is 25 inches out from leg to leg. There are bits of wear to the paint mostly on the one blue sphere as pictured and light wear as otherwise shown in the last group photo. This would look amazing with any mid century classic or funky decor!
