Glass Shade Ceiling Light Circa 1920

Reference:

MPD-001442
Description
Authentic antique mid-size ceiling fixture circa 1920. We took three of these from one home, so they closely match if you are looking for that. They are priced and sold separately.

Amber pleated glass shade with a light pewter finish frame. The finial on the ceiling canopy is how you hold the fixture to the electrical box , and all mounting supplies are provided.

The lovely glass shade has a diameter of just over 10", and an overall drop down from the ceiling of a mere 11".

The light has been restored with a new center cluster containing two medium base normal light sockets. Bulbs are easily changed in this light.

An original antique (times three while they last) with a very nice appearance.

Price:

$295.00
