250-5PTL-41 Art Deco LED Tube Light Fixture 5-Tube Light with Bright White LED

250-5PTL-27 Art Deco LED Tube Light Fixture 5-Tube Light with Soft White LED

Continuing to push the cutting edge of green technology, we offer you our first exclusive LED light fixture. With our passion for the charm of the Art Deco age, it's logical that it's an Art Deco style fixture. A true breakthrough in green energy saving technology, and in our opinion, an attractive “long surface” or counter light. Great also for an office, recreation room, or commercial location.

We started with an Art Deco fixture, then installed the latest LED technology into it! An important attribute is its quality. Cast from solid brass and then either polished brass or nickel plated. The glass of fan sections, are true opal glass. The best LED tubes are used for this beautiful light in either 3 Tube or 5 Tube models.

We are making two fixture models with two finishes, polished brass or nickel plated.Choose from a warm Kelvin temperature of 2700K, same as incandescent bulb color, or bright Kelvin 4100K.

You can choose the level of light you desire. EACH LED tube has 180 LEDs creating 990 lumens of light, but each tube draws only 15 watts of electricity for an output of 100+ watts PER TUBE. Tubes last about 30,000 hours based upon working environment.

Measurements: The length of the fixture is 26 1/2” and the ends are 11 1/2” wide. Height from the ceiling is VERY flexible. The fixture was designed so that the center nickel pipes going between the ceiling canopy and fixture are infinitely variable..up or down.

Standard length of mounting pipes that come with the fixture, are 27” which results in a 34” in height fixture. However, this fixture can be as short as 8” by trimming each pipe, and the internal allthread, equally.

The fixture can have pipes joined together for longer drops. We can create a fixture with your desired height.

The fixture requires partial assembly. Canopy size is 7” by 12”. The fixture mounts to a standard crossbar (supplied) when attached to a standard approved electrical box, with the center decorative finial of the canopy.

We also offer a 5-LED tube office light or kitchen light that will work in a variety of decor, including modern office, or arts & crafts revival.

Price:

$695.00
