American Art Deco Lincoln Fleurette Slip Shade Sconces Pair

Reference:

MPD-001438
Description
As the curators of the ONLY American Art Deco Lighting Museum, We have been fortunate to receive a donation of authentic art deco lights for our museum funding. While Vintage Hardware & Lighting does make the reproduction of this light in brass, these are the originals, cast with zinc and aluminum frames Circa 1930s.Some restoration and re-wiring has been done to bring them all up to UL standards.All are supplied with either old or new mounting supplies.Shades are replacements. This series was named Fleurette.Made by Lincoln Manufacturing, of Detroit, MI about 1935.In the series, there were four light types.They were: a five light chandelier; a six light chandelier with a glass bottom; a two light hall fixture and sconces. We were lucky to get 3 out of the four types and are offering them until they are sold out.All proceeds will go to museum expansion and maintenance. ANT-71A...restored white metal sconces by Lincoln. Replaced socket and replaced Leviton switch identical to the old ones.Capable of 100 watt bulb. Sold as a pair with amber shades or frosted shades which simply slide into the frame.

Price:

$450.00
