Steampunk Chandelier Light Fixture

Reference:

MPD-001418
Description
We must admit that we love to build lighting. Whether it is restoring our lovely antiques, or re-creating previous lighting devices, we simply enjoy building and restoring lights.

So...it is no wonder when we were asked to build a chandelier for a small production “play” with a “steampunk” theme, we came up with this beauty. Yes, it is one of a kind.

The chandelier is wired with two medium base sockets for 120 volt bulbs and 3 sources of 12 volt colored indicator lights as shown in the pictures.

Keeping the steampunk theme going, we used “space age” looking induction bulbs and control panel indicator lights to complete the theme. Many compliments have come for this chandelier, but living in a victorian town, it is a bit out of place in this local.

This chandelier is totally ready to go and will be supplied with all the necessary mounting hardware.

Meas: 41” tall by 25” wide.

Price:

$895.00
