

Lovely pair of Circa 1920 wall sconces

Reference:

MPD-002255

Description

Lovely pair of Circa 1920 wall sconces. Original antique sconces with original Art Glass antique shades.

These sconces have a lovely Edwardian brass look and a great design that is so typical of the Edwardian style.

The original antique shades are also so very nice. They are an ivory color with clear applied art glass touches to each side. Tall shades and the design on the art glass shades seems to match the shapes found in the metal backplate. A nice combination indeed.

The metal, of the backplates, is stamped metal in solid brass with a hi/lo finish. Ready to go...nothing needs to be done except add the light bulbs of your choice. We would recommend our LED candlebrum bulbs, 35C-E26 if you wish ambient light rather than full room power. The ambiance of these is warm and draw so little electricity (1.6 watts) that we have known folks that leave them on 24/7. The bulbs do have an expected life of 25 - 30,000 hours.

These sconces have been completely re-wired with new sockets and all new wire.

Measurements: The Overall sconce height is 11". The maximum width (shade) is 4 1/2". It will project into the room, from the wall 5 1/2". The backplates measures: 4 1/2" x 10 1/2"

\$ 375.00 for the complete pair... plus careful packaging and shipping
