Art Deco Edwardian Style Pair Over-the-top Sconces

Reference:

MPD-003079
Description
Pair of unique and attractive castle-look sconces ..Circa 1920s. The frames are cast and come with a nice and mellow pewter finish.

The frosted shades are in great condition with only a couple of minor nicks where they go into the fitter...not seen after installation. The shades are so different than the run-of-the-mill Edwardian types. While it is obvious that they are pressed glass, that rim folding over is so unique.

Electrical: These sconces have been totally re-wired in our UL shop. Normal sockets, for everyday medium base bulbs, were installed in each sconce.

We have also replaced the rotary switches, made by Leviton in the 20’s...and were still made up to ONE year ago. So these switches, by Leviton are becoming even more antique as we note this.

The sconce mounts with one normal sconce mounting all-thread to a normal electrical box from within the case. All mounting hardware will be supplied.

Measurements: ” tall by ” wide and projects into the room from the wall ”.

Price for the re-wired, complete, pair: $ 350.00 as shown.

Careful packing and shipping is a bit extra.

Price:

$350.00
