Outstanding Pair Of period Edwardian Cut Crystal Hurricane L

Reference:

MPD-003107
Description
Outstanding pair of period Edwardian cut crystal hurricane lamps.

We cannot emphasize strongly enough, the quality of this pair of lamps. They have been copied and reproduced and cheapened, into oblivion, from the original outstanding quality of the original antiques...of which...these are !!

Standing a lovely 25” tall with shades that reach 10” in height, all parts of these lights simply state “Quality”. And the condition...marvelous ! To emphasize the quality of these lights, here are the dimensions...stage by stage:::: The base starts with a 6 1/8” width across the points...moves to the 2nd square piece at 4” wide; then the ball (with cut design) at 2 1/4”dia; then to a block at 2 7/8”square and finishing with another part sectional parts also with a cut design matching the below part at 2 1/4”.

The bobeche has a diameter of 5 3/4” and supports 10 original victorian square cut crystals.

The shade is 10” overall with 9 1/4” of it being visible with a nice cut pattern. This shade is of the heavy old type...not the tinney cheap stuff being made recently. Just a lovely and quality set for someone who appreciates the real quality of items rather than just a pseudo “look”.

It was totally re-wired, in our UL shop. We replaced the Edwardian sockets with new medium base sockets and all new clear lead wire with cord switch instead of the brown Rayon cord that they came in with.

Price for the pair: $ 650.00 plus VERY careful packing and shipping charges.

Price:

$650.00
