

Johannes Andersen Danish Modern Coctail Bar

Reference:

MPD-003556

Description

Johannes Andersen (1905-1991) designed this teak wood standing dry bar for Skaaning and Son in 1961. The front of the bar features inlaid circles of rosewood and a chrome foot rail. The bartender side of the bar has a fold out top, which folds out for a black composition serving area. The back folds down with a black preparation area and a nine glass holder and a mirrored back. A sliding shelf door covers spaces for storing supplies and the bottom rotates down to store nine bottles. The bar, so useful when open, close up to a compact 45" wide, 43 1/2" high and 15" deep when not in use.
