Description
This American art deco desk lamp from the 1930s was manufactured by the **Markel Company** of Buffalo, New York. The rectangular black composition base is highlighted by "speed" stripes. The pivoting shade supports finials and stepped up light switch all speak of the period's fascination with the machine. The lamp has been rewired. It measures 11" high and 12" wide. We've had several variations of this lamp in the past so we're happy that this one came our way!
