Description
French Art Deco dining room server or buffet in exotic Palisander veneers on the exterior with Mahogany lining inside of front door and Palisander lining the interior walls. The server is incredibly well made and exudes design attributes that are both nuanced and declarative. The side and front form very gentle "S" curves, with the server simultaneously flaring wider as the piece moves its front toward the back. The server handle is to die for ... such incredible Art Deco design that captures one's attention immediately! The handle is in the original polished chrome and has been hand polished to a gleaming result ... another polished chrome detail is found stretching along the front accentuating the cabinet's stepped top. The original tres Art Deco key with its stepped pattern is included with the working original lock. The server interior features three shelves providing a very nice amount of storage. The recessed base features a contrasting yet complementary Sycamore riser that acts as a foil to the darker and richer Palisander wood. The piece has been hand stripped and refinished using Deco-Dence's luxe Italian polyester finish that is totally water and alcohol impervious ... providing decades of use and gorgeous beauty with minimal TLC. Magnifique!
