

Mid Century Modern Large Figural Banana Tree Lamp Sculpture

Reference:

MPD-001123

Description

This is a wonderful lamp that is a life sized sculpture of a banana tree hand crafted in brass. The individually formed highly polished brass leaves flow naturally from the trunk. The hanging cluster of bananas hides the surprise of a light. The round base is 15 inches in diameter and is chased with a decorative pattern. Imagine this illuminating the corner of your room.
